

### **What is the Pupil Premium?**

The Pupil Premium is an additional layer of funding received by schools. The amount allocated is linked directly to the number of pupils eligible for Free School Meals and the number of pupils whose families work in the Armed Services. Funding is also given to children in the care of the Local Authority.

Nationally the statistics show that students who are in receipt of FSM or in the care of the Local Authority do less well than their peers in external exams.

The aim of this money is to try to close that attainment gap.

### **Objectives for Pupil Premium:**

- Pupil Premium and Armed Services Funding will be used to provide additional educational support that will directly or indirectly improve the progress and raise the standard of achievement for these pupils.
- The funding will be used to close the gap between the achievement of these pupils and their peers.
- The funding will reach those pupils who need it most to make an impact on their education and lives.

### **Context of the School:**

Hackthorn church of England primary school educates children from 4 to 11 years of age. We currently have 60 children on roll. Our pupils derive from the local village and surrounding areas. Recently we have welcomed several families from Lincoln. We have links with a before and after school 'Kids club' in the neighbouring village who provide transport for children in a breakfast and after school club.

### **Monitoring Pupil Premium:**

The School Leadership Team and Governing Body monitor the impact of spending and interventions. The Governing Body receive regular information on Pupil Premium and Services Funding which allows progress to be monitored, tracked and challenged appropriately.

*During the academic year the list of pupils eligible for funding is constantly reviewed. Whilst there remains a group that would benefit from academic intervention and support, it has been identified (largely under the forever 6 criteria) that there is also a group for whom academic attainment is less of an issue. We believe it is more beneficial for such children to provide extra-curricular activities to enrich their talents. We spend the funding according to the needs of the individual pupil. This could be to support them directly with academic learning or to support other developmental needs which will in turn positively affect their ability to learn.*

*As we are a school with very small cohorts and children eligible for Pupil Premium are not evenly distributed across year groups it would be misleading to judge the impact of the use of Pupil Premium purely in terms of national testing data. When the progress of individual children is examined however, the effect of the funding on the development of 'the whole child' can be seen in context.*
